Mockup review
- Like style of mockup B better
- Add a progress bar in expandable side menu for quick navigation
- Color scheme and font choice can be closer to the show's fun, joyful aesthetic
- Less chunky text
- Continue experimenting with character placement and use of carousel
- Somehow incorporate bubbles effect? Maybe a bubble as button or animation effects?
- More dynamic layout (composition wise)

Some fun websites for reference:

Retro Goofy vibe **Click the skull icon in upper right corner on the main page!!!**

One page scroll structure
